I support <sup>the DOE</sup> preferred alternatives ~~1~~ and <sup>alternative</sup> 2 with the following caveats: (Nez Perce)

- 1) no grazing anywhere on Hanford or DOE leased land.
- 2) restriction of industrial use to the 300 or 1100 areas.
- 3) management of Uhmatarum ridge and the Wahluke/North Slope by USFWS. Preservation of such lands for biological study and habitat conservation with extremely limited or no public access.
- 4) continued management of ALE by USFWS with extremely limited public access.
- 5) at least a one-mile wide protected strip alongside the Columbia River (both banks), between Vernita Bridge and the 300 Area, where preserved for biological study and habitat conservation with development prohibited.
- 6) preservation of McGee Ranch area from development and other habitat disturbing activity.
